

I would like to express my concerns about the stopping of free speech and the limiting of up to the minute information available only through xm radio. I want to be able to find out real time information about travel and weather conditions in the metropolitan areas I frequent on a daily basis. This information is only available through XM RADIO!!! The weather channnel is a joke, unless you live in Atlanta. They are wrong much more often than they are right. Please allow those of us who travel for a living have the opportunity to finally have the service we need. Thank you for your support,, Bill Petersen
